The Middle Years Programme is a concept based curriculum framework designed by educators around the world for the students aged 11 to 16 years which teaches and encourages these young minds to embrace and understand the connections between traditional subjects and the real world.

Key Terms:

Approaches to learning (ATL) - concerned with the development of thinking skills, strategies and attitudes and the ability to reflect on one's own learning.

Assessment Criteria - Criteria against which a student's performance is measured as evidenced by work produced. Subject-group guides provide assessment criteria to be used for final assessment for each subject group and for the personal project.

Personal Project - A project that is the culmination of the students' experience in the MYP and shows their experience of ATL and global contexts. It is completed in the final year of the programme (Grade 10).

Service as Action - IB learners strive to be caring members of the community who demonstrate a personal commitment to service, and act to make a positive difference to the lives of others and to the environment. Core component activity of GMIS Middle School students' that is required to be completed once a term.

Interdisciplinary - Combining or involving two or more branches of learning or fields of academic study. In the MYP, interdisciplinary study can be developed both within and between/among subject groups.

School Policies - framework in which the entire GMIS Bali education system is based.
